WRITES INTERESTING LET-TER FROM FRANCE

Mill Rembercourt, France, November 28, 1918. Dear Aunt Matt:

Well, it's all over and how very glad we all are, and we have now the complete and absolute victory which was destined to be ours all the time. Nothing less would have sufficed. It is final. I was in the last battle of the war, right out in it, in the very front lines, and in front of the Hindenburg line which we attacked in the afternoon of Nov. 10th, at 4:30 hour (2:30 p. m.) It was awful. I have had my complete fill of war; and have seen mangled, battered and blood-spattered men; arms off, legs mashed and crushed, heads split open -God, the grewsomness and awfulness of it all is too much for words, and thank God it is all over now.

## Why Meat Prices Vary in Different Stores

These newspaper quotations represent live cattle prices in Chicago on December 30th, 1918.

The list shows price ranges on nine general classified groups with a spread of \$13.85 per cwt. -the lowest at \$6.50 and the highest at \$20.35.

Why this variation in price?

Because the meat from different animals varies greatly in quality and weight.

Although the quotations. shown are in nine divisions, Swift & Company grades cattle into 34 general classes, and each class into a variety of weights and qualities.

As a result of these differences in cattle prices, (due to differences in weights and meat qualities), there is a range of 15 cents in Swift & Company's selling prices of beef car-

#### These facts explain:

M. 1.

- 1-Why retail prices vary in different stores.
- 2-Why it would be difficult to regulate prices of cattle or
- 3-Why it requires experts to judge cattle and to sell meat, so as to yield the profit of only a fraction of a cent a pound-a profit too small to affect prices.
